This Week in the CRRC

UMMC Cardiovascular-Renal Research Center

OCTOBER 18, 2020

Akinleye to present Pharmacology Seminar

Adesanya A. Akinleye, Graduate Student, Department of Pharmacology will present, "MMP-2 Inhibitor Biologic for Treatment of Renal Disease" at 11 am on Monday, Oct. 19 via WebEx.

Wu to present Cell and Molecular Biology Seminar

Haotian "Howie" Wu, PhD, Postdoctoral Research Scientist, Columbia University, will present, "Phthalate Mixtures and Maternal Postpartum Cardiometabolic Health in Women from Mexico City" on Monday, Oct. 19 at 3 pm online via Big Blue Button.

Mouton to present Department of Physiology Seminar

Alan Mouton, PhD, Instructor, Department of Physiology & Biophysics will present, "Role of Metabolism Underlying Cellular Remodeling Phenotypes During Cardiac Injury" on Wednesday, Oct. 21 via Big Blue Button at 12:00 pm.

Elsayed and Gibert to present at CRRC WIP Meeting

Dr. Noha Elsayed, Instructor in the Department of Cell and Molecular Biology will present, "Impact of prenatal hyperandrogenemia on male and female offspring" and Dr. Yann Gibert, Associate Professor, Department of Cell and Molecular Biology will present, "Assessing the potential of Omega-3 and Omega-6 resolvin's to increase haematopoietic stem cell production *in vivo*" on Thursday, Oct. 22 at 1 pm online via Big Blue Button.
