# JOINING UCONNECT WIFI ON YOUR IPHONE AND IPAD (IOS)

Select **Settings** > **Wi-Fi** > **"UConnect"** wireless network

If UConnect is not listed under Networks, Select **Other** at the bottom of the list and enter **UConnect** as the Name and WPA2 Enterprise.

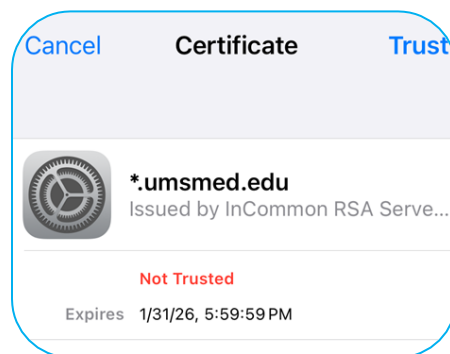

Next, enter your Active Directory Username and Password

You will be asked to Trust the Certificate. Select **Trust** in the top right corner.

You should now be connected to UConnect!

NOTE *You should only have to Trust this Certificate the first time you join the Uconnect network unless you click to "Forget this Network". The certificate does show an expiration date and you will have to trust again at that time.*

*Subject to Change depending on UMMC modified Business Processes

JOINING UCONNECT WIFI ON YOUR MAC

Select **Settings** > **Wi-Fi** > **"UConnect"** wireless network

If UConnect is not listed under Networks, Select **Other** at the bottom of the list and enter UConnect as the Name and WPA2 Enterprise. Enter your Active Directory Username and Password.

You will be asked to Verify Certificate if you selected from the wi-fi list an didn't create by selecting Other. Select the continue button to connect.

You should now be connected to UConnect!
