

Population Health Grand Rounds Presents

Paul Burns, Ph.D., M.A.

TOPIC:

“Sex and the City: Urbanization, the Built Environment and the Sexual Geography of HIV/AIDS in South Africa”

Thursday, September 28, 2017
12:00 – 1:00 pm

Location: Lecture Hall 122 in New SOM

Objectives: At the conclusion of this activity, participants should be able to...

- 1) Define the concept of the built environment.
- 2) Describe key social determinants associated with HIV vulnerability.
- 3) Describe how the built environment or physical characteristics of poorer neighborhoods influence population health and contribute to increased HIV risk vulnerability.
- 4) Implement evidence-based HIV prevention, care and treatment interventions and programs that use a social determinants of health framework to improve the HIV health-related outcomes of most at-risk populations.
