2. Describe UMMC's designation as a center for excellence for telehealth in the nation
3. Describe different telehealth applications
4. Describe the current and future plans for the telehealth in improving population health

Akeem Adebayo, MD, MBA, MPH

Fellow Department of Psychiatry &
Addiction Medicine
Tulane University, New Orleans, LA

Dr. Adebayo is a native of a rural village in Nigeria. During his medical training at College of Medicine, University of Lagos, Nigeria, he underwent multiple elective rotations at prestigious institutions in countries like South Africa, United Kingdom and United States. Since relocating to the country few years ago, he obtained a Physician Executive MBA from the University of Tennessee, Knoxville and also studied for his MPH degree at Emory University in Atlanta, GA. Currently, he is graduating as the first Preventive Medicine fellow of our institution. He will be starting his addiction medicine fellowship training at Tulane University in July, and he aspires to make a difference in the health of Mississippians and the world!

Julio C. Cespedes, Jr., MS

Director, Telehealth Innovation,
Design & Implementation
Center for Telehealth
University of Mississippi Medical Center

Julio Cespedes, Jr. serves as the Director of Telehealth Innovation, Program Design and Implementation for the Center for Telehealth at the University of Mississippi Medical Center in Jackson, Mississippi.

In his current role, Mr. Cespedes partners with operational and clinical leadership to help lead the transformational growth of digital health by identifying, developing, and overseeing the implementation of high impact digital health and telemedicine programs and strategies. Additionally, Mr. Cespedes provides leadership direction and operational management for the Telehealth Center of Excellence (TCOE).

Prior to his current role, Mr. Cespedes served as UMMC's Director of Strategic Development, focusing his efforts to collaborate with physicians, hospitals, payors, and other entities to develop innovative pathways and models of care for fellow Mississippians. In total, Mr. Cespedes has been working in some capacity with UMMC's Center for Telehealth since 2015 where his management experience includes program design, field implementation, and evaluation of virtual clinical delivery models with a particular emphasis on the strategic development of statewide access and triage networks across multiple specialties.

Previously, Mr. Cespedes was a public sector management consultant helping agencies reengineer and improve business processes. Prior to consulting, he was the corporate intern for St. Dominic Health System. He began his career in health-care in UMMC's Department of Family Medicine.

Mr. Cespedes received his Master of Business Administration degree from Millsaps College. He received his Bachelor of Science in Biomedical Engineering from Mississippi State University. In his spare time, Mr. Cespedes enjoys culinary adventures and is an avid skier.
