| Grand Total | | | 37 |
| Total Clinical Hours | | | 525 |

A student may create a custom plan of study (POS) to meet individual needs, taking as few as one course per semester or as many courses as needed to complete the curriculum in the shortest time (4 semesters). When creating a POS, refer to the listing of the semesters that courses are offered and the instructions below.

Special Instructions:

- Take N632 the first fall or spring semester following acceptance into the program and N633 the next semester it is offered. All core courses should be entered into your schedule first.
- N659 and N696 must be taken **together** after the completion of ALL other courses. The credit hours for both courses may be divided between two semesters, if desired.
